

June 2019

Dear Parents and Guardians ,

Welcome to Fifth Grade ! In fifth grade your child will expand on the foundation skills learned over the passed few years. As a way to keep those skills from getting rusty over the summer we have enclosed a suggested summer reading list and a list of math sites for reviewing skills. Students that would like to write a book review and hand it in will be given extra credit. Please have your child review their multiplication facts through out the summer. Memorizing the times tables are building blocks for other math topics taught in school such as division, long multiplication, and fractions, all of which will be addressed in the fifth grade.

In addition, we have included a 5th grade Supply List for your convenience. Thank you as always for encouraging and supporting your child's education. We look forward to meeting you and teaching your child in September.

Have a wonderful and relaxing summer!

Sincerely,
Ms. Linda Levant
Ms. Ashley Tarasevich

Suggested Summer Reading List for Students Entering 5th Grade

Dear Mr. Henshaw - Beverly Cleary

The Kid Who Ran For President - Dan Gutman

The World According to Humphrey - Betty G. Birney

Hatchet - Paulsen Gary

Crenshaw - Katherine Applegate

Ida B...and Her Plans to Maximize Fun, Avoid Disaster, and (Possibly) Save the World - Katherine Hannigan

Full of Beans - Jennifer Holm

Wishtree - Katherine Applegate

Stef Soto Taco Queen - Jennifer Torres

Bud Not Buddy - Christopher Paul Curtis

Math Sites

1.) **Times Table** <https://www.timestables.com/games/>

2.) **First in Math** (access through schoolnet)

3.) **Khan Academy**

Khan Academy is a personalized learning resource for everyone. It offers practice, videos, and a personalized learning dashboard that provide students with the opportunity to study at their own pace.

<https://www.khanacademy.org>

4.) **Calculation Nation**

Calculation Nation is a free education service of The National Council of Teachers of Mathematics. It allows students to challenge opponents from anywhere in the world. At the same time, students are able to challenge themselves by investigating significant mathematical content and practicing fundamental skills.
